Note about Unduplication of Data
<i>Data on students experiencing homelessness are un-duplicated at the State level, meaning that a student who was enrolled in multiple school districts during the school year is counted only once in the spreadsheet. Duplicate counts were handled according to the following business rules:</i>
<i>· If two districts reported a student as enrolled, the district with the homeless flag is attributed the student;</i>
<i>· If two districts reported a student as enrolled and both flagged the student as homeless, the district where the student was enrolled last during the school year is attributed the student.</i>
